ROBOTIC GOLF INSTRUCTION

High Tech robotics to help you feel and repeat your on-plane golf swing

Experience golf instruction at a whole new level with our AWGA Members-Only RoboGolf Summer Training Packages. Our Robotic Golf Instruction, taught at our indoor learning center, puts your swing on-plane and lets you feel the proper movement. Then swing repetition helps you commit the movement to memory so you don't have to "think" about your swing when you're on the course.
